Bachelor in Arts, *Yashwantrao Chavan Maharashtra Open University*
2019-2022   75.00%

HSC, *Maharashtra State Board*
2017-2018   80.00%

SSC, *Maharashtra State Board*
2015-2016   89.60%

Projects

Superstore Dashboard 🔗
- **Interactive Visualization:** Designed and developed an interactive Tableau dashboard with navigation, filter options, and four distinct pages, providing a comprehensive overview of business insights.
- **Enhanced User Experience:** Incorporated visually appealing elements, including a homepage cartoon image, to elevate the user experience and make data interpretation more engaging.
- **Tools:** Tablue Public

Amul Product Revenue Explorer 🔗
- **Comprehensive Analytics:** Developed a comprehensive revenue analytics dashboard for Amul, analyzing key metrics by category, product, and customer to provide actionable insights.
- **Strategic Recommendations:** Identified areas for improvement and presented strategic recommendations to increase revenue and profitability for the leading dairy company in India.
- **Tools:** Tablue Public

Executive Metric Dashboard 🔗
- **High-Level Performance Overview:** Developed an executive metric dashboard for an auto repair shop, offering a high-level overview of performance metrics in areas such as customer satisfaction, revenue, and cost.
- **Customer Segmentation:** Included a breakdown of customer segments by loyalty status and top 5 customers and repair categories, providing valuable insights for targeted marketing and improvement strategies.
- **Tools:** Tablue Public

MIS Representation 🔗
- **Visual Data Presentation:** Created various charts and graphs, including clustered column charts, stacked line charts, and doughnut charts, to visually represent key performance indicators for a multinational company.
- **Leadership Insight:** Presented data visualization findings to the senior leadership team, ensuring clear and easy-to-understand representations for informed business decisions.
- **Tools: Microsoft Excel**
